

Stream of Consciousness

Will Nediger

The answers in this grid are run together, stream-of-consciousness style, with no breaks in between answers, which don't even respect the edges of the grid (when the stream hits the end of a line, it continues at the beginning of the next line, sometimes in the middle of an answer). The clues for the Across and Down streams are given in order, with answer lengths given, but no indication of which ones are multi-word answers.
